Royal

Synthetic Compressor Lubricants

EXTENDED SERVICE = 8 TIMES MINERAL
GREAT FOR COLD START-UPS = LOW POUR POINT
CLEANER, MORE EFFICIENT PERFORMANCE
LESS WEAR & TEAR = FINE ANTI-WEAR ADDITIVE PACKAGE
EXCELLENT COMPATIBILITY FOR SEAL & GASKETS

For 50 years, Royal has been a partner with major industrial and aerospace corporations. In fact, the compressor lubricants that Royal manufacturers were first developed for the stringent requirements of aerospace applications. Royal

has been a pioneer in synthetic lubricants R&D - they have the unique advantage of having unraveled the mysteries of combining additives into PAO's, the choice lubricant for your compressor.
